

Energy Chiro, II

ADVANCED

Energy Medicine for Structural Wellness

with Ellen Meredith, D.A., EEM-AP

San Diego, California ∞ August 19-20, 2017

Advanced Energy Chiro builds on the skills learned in the Energy Chiro I class. Energy Chiro teaches how to work energetically to balance and strengthen the deeper structures of the body, including the muscular-skeletal system and the energetic spine. In Advanced Energy Chiro we will explore how to take this work into deeper and more complex dimensions. This is a two-day class where we will learn energy chiro joint rebuilds/repair and ways to use Energy Chiro to tune the body's energy receivers to higher vibrations.

This is a rare opportunity to learn advanced material that is not available on DVD!
