

Sensing Subtle Energy

An Experiential Workshop for Energy Medicine Practitioners
with Ellen Meredith, DA, EEM-AP and Paulette Taschereau, EEM-AP

Natick/Boston, MA ∞ August 4-6, 2017

Deepen your ability to perceive subtle energies and work with them creatively! Each of us has perceptual gifts that can be developed to make us more effective as healers and EM practitioners. These gifts vary from individual to individual, and relate to your soul's purpose, your "council" (wiser self) affiliations, and your mind's ability to recognize what you receive. Topics include:

- Recognizing and cultivating your gifts as a healer;
- Deepening understanding and perception of the 5 rhythms and their interactions;
- Tapping into guidance or Wiser Self consciousness to help clients recognize their gifts, purpose, and healing path;
- Working with language, metaphor, and narrative to express energy perceptions;
- Learning to frame and characterize energy issues in positive and productive ways;
- Learning to create EM exercises or therapeutic work to help someone address an energy issue.

Pre-requisite: Year One of the Eden Energy Medicine Certification Program or permission of the instructor.

Venue: Crowne Plaza, Boston-Natick, MA

Times: Friday 6:30-9:00 pm; Sat. 9:30-6:00; Sun. 9:30-5:30

Cost: \$375 for the weekend
