

# Storyline Track & Balance:

## Clearing Energy Habits Where They Live!

*with Ellen Meredith, DA, EEMAP*

**Toronto, Ontario Canada ∞ Sept 7-9, 2018**

This weekend workshop offers tools for clearing templates from the Habit Field – energetic blueprints that fund energies to your mind-body and tell your body's energies how to behave.

Storyline Track and Balance offers a magical journey for both the practitioner and client. This transformative protocol allows you to:

- track where a story is coded into the energy systems
- re-set the 5-element balance relative to a particular storyline
- provide Energy Medicine where the habitual energy disturbance lives
- dialogue with the storyline and gain insights
- clear habits effectively and in a lasting way

Pre-requisite: Year One of the Eden Energy Medicine Certification Program or permission of the instructor.
